ABOUT US

Elite Construcciones S.L. is a highly dependable and capable construction and engineering firm, operating safely to **International Standards**, specializing in the **Gas and Petrochemical Industry**.

Here at Elite we specialize in Design and Build Projects, LNG Projects, Civil Engineering Construction, Refurbishment, Pre-Fabrication, Building Supply, Erection, Laser Survey, Geotechnical/Ground Investigation Survey, Fabrication, Blasting, Painting, Tank Cleaning, Logistics, Plant Hire and Offshore and Onshore Labour Supply.

ELITE has many years of experience between our management team. The company has earned recognition for undertaking large complex projects, fostering innovation, embracing emerging technologies, and making a difference for their clients, employees and community as a whole

For over 9 years, ELITE has managed to offer and provide a wide range of development options through our experience and extensive knowledge within all aspects of business from design, detailed accurate planning to project completion – A Total Project Package

MISSION

Our aim is to provide you with exactly what you need, delivered when you want it.

VISSION

ELITE will be the means of positive and meaningful change as it encourages growth and development, good corporate governance, better health in communities, and a better quality of life, not just for its people but for the communities it serves.

CONTINUOS IMPROVEMENT

Our passionate commitment to improve and innovate. Looking to expand to other countries like Europe and America.

HEALTH & SAFETY ENVIRONMENT

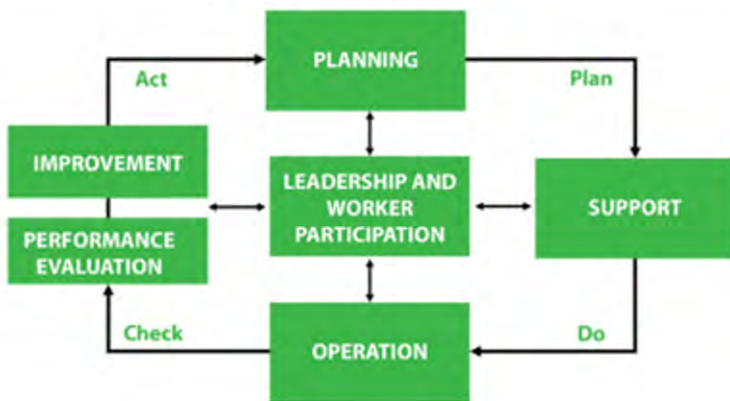

Elite Construcciones S.L. philosophy is that the well-being of our company and its clients is dependent on the health and safety of our workers. Hence, we put the highest priority on the safety and health of our workforce. We take pride in the 2,800,000 safe man-hours accumulated over the years of working in the most challenging works in the construction and oil field industry.

In the last two years of operations, Elite has zero OSHA recordable incidents. Our HSE Management System provides a complete guide to all levels of the organization to achieve zero injuries.

ELITE believes that ZERO injuries are possible

OVERVIEW OF HEALTH & SAFETY PROTOCOLS

By working together, we can all stay safe.

Covid 19 Pandemic Response

Elite Construcciones S.L. responded proactively during the onset of the Covid 19 pandemic with establishing policies and safe guards to control the threat of the pandemic to its manpower and its clients.

DESIGN ENGINEERING AND CONSTRUCTION

Elite Construcciones S.L. provides a wide range of services to meet every type of need such as

- SURVEY
- SCHEDULING
- GEOTECHNICAL
- DESIGN (*Architectural / Structural Mechanical / Electrical*)
- ENGINEERING
- CONSTRUCTION
- PROGRAMMING
- TURN-OVER ON TARGET DATE
- SCANNING

GEOTECHNICAL DRILLING

Elite Construcciones S.L. supplies geotechnical services from getting samples to soil analysis to the oil and gas, petrochemical and civil construction industry.

With the equipment at our disposal ELITE have the capability to carry out conventional coring, wireline coring, windowless sampling, SPT testing and rotary open hole drilling techniques, and can use either water or air flush methods.

ELITE also have its own grout mixer/pumps for borehole installation and completion/sealing off.

We have design & build on everything from roads, offices, warehouses, houses, hospitals, guesthouses, schools, shops, water distribution line, gas stations, gas tank storages, electricity

WELDING & FABRICATION

Elite Construcciones S.L. Welding and Fabrication Department supplies welding of most common oil & gas industry materials, with our procedures approved by ABS.

SERVICES SUPPLIED BY US INCLUDES BUT NOT LIMITED TO

- FABRICATION OF STEEL STRUCTURES
- PROCESS PIPE FABRICATION AND WELDING
- STEEL PLATE CUTTING
- HYDRO TESTING
- COLD CUTTING
- MANPOWER SUPPLY
- NON-DESTRUCTIVE TESTING
- MANPOWER SUPPLY
- LOCAL MATERIALS SUPPLIED
(Materials Imported upon Request)

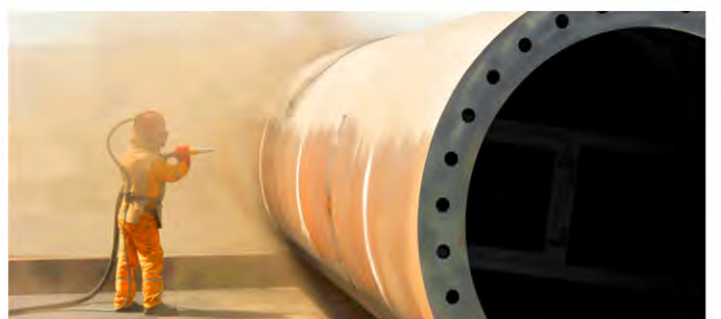

BLASTING & PAINTING

Elite Construcciones S.L. Blasting and Painting Department supplies coatings to process piping and steel structures for oil & gas companies in Equatorial Guinea, using international recognised standards and leading paint manufacturers painting systems.

SERVICES SUPPLIED BY US INCLUDES BUT NOT LIMITED TO

- PIPE BLASTING
- STRUCTURAL STEEL BLASTING
- PIPE COATING
- LABOUR AND EQUIPMENT SUPPLY
- STRUCTURAL STEEL COATING
- LOCAL MATERIALS SUPPLIED
(Materials Imported upon Request)

PROCUREMENT & LOGISTICS

Elite Construcciones S.L. Procurement & Logistics Department offers fast and reliable procurement of materials ensuring quality, availability and delivery in a timely manner at a lowest cost possible whilst conforming to Client's standards and requirements.

Air Freight - for speedy delivery of your goods, we can handle the air freight of your cargo. We have years of experience in transporting packages.

Sea Freight - for very large items where air freight is not a possibility, we offer our clients the option of sea freight.

MEAKIN LOGISTICS

MECHANIC & PLANT HIRE

Elite Construcciones S.L. performs a high quality automotive and/or equipment mechanical repairs and a timely preventive maintenance.

Light vehicles – Sedan, Pick-up, AUV, SUV, Minibus, Coaster, Commercial van, Cargo van and etc.

Heavy Vehicles – bus, compactor, grader, telehandler, excavator, wheel loader, crane etc.

LNG & RECYCLING

The LNG Project is one of our biggest projects to date and we are very proud of it, working with LNG and the Ministry of Mines and Hydrocarbons for Equatorial Guinea. The goal of this project in theory was simple, transportation and storage of LNG (Liquid Natural Gas) from the EG LNG plant at the Punta Europa Gas Complex on Bioko Island, heart of Bioko Norte, Malabo, the southern border of Equatorial Guinea's mainland.

From there it will be put into our Regasification Plant for storage and distribution. The gas from here will go onto fuelling the local cement plant and distributed to various LNG power stations around Equatorial Guinea. Providing clean and environmentally friendly energy to countless people.

Now you may ask yourself, what is LNG? LNG is the liquid form of natural gas, one of the safest and cleanest fuels available. It emits less pollution than other fossil fuel sources.

When natural gas is burned, it produces mostly carbon dioxide and water vapor, the same substances emitted when humans exhale. Compared with some other fossil fuels, natural gas emits the least amount of carbon dioxide into the air when combusted, making natural gas the cleanest burning fossil fuel of all.

MANPOWER SUPPLY

Elite Construcciones S.L. strongly believes that the success of any project is in the hands of the workforce. We believe that this will help you maximize productivity, minimize wasted time improve safety and cost-efficiency.

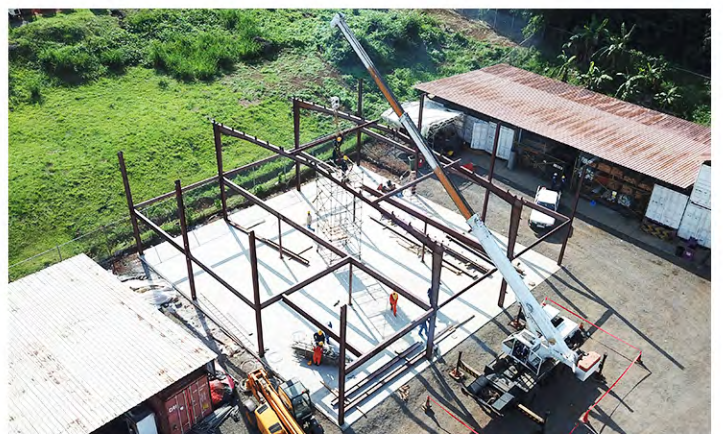

We have earned a reputation of supplying dependable management etc., ompetent, experienced skilled and general operative labour. We provide quality personnel to the fields of expertise and competence that you need for your projects.

ONSHORE & OFFSHORE SUPPLY

All our employees have vast experience in variety of disciplines for both onshore and offshore works and are dedicated and committed in their work. We supply varied labour to suit the project requirements and an excellent supervisory scope to oversee from start to project completion.
